I am transitioning into front-end development after completing several intensive, project-based training programs. I studied **Front-End Development** at **ReDi School of Digital Integration**, have completed extensive self-study in web development, and am currently enrolled in the **HackYourFuture Denmark Web Development program**.

Alongside my studies at HackYourFuture, I am seeking an internship/ junior position to gain hands-on industry experience, contribute to production-level code, and further develop my technical skills in a professional engineering environment. My goal is to create high-quality, user-focused solutions.

PROJECT WORK

[View on GitHub](#)

✓ HackYourFuture foundation project - Memo game

Fullstack Developer (HTML, CSS, JS, Node.js, Express, SQLite)

- Made in collaboration with my classmate
- A classic Memory Card Game built with JavaScript, featuring a backend and database (SQLite) for dynamic card data, responsive design, and multiple difficulty levels.

✓ Event App

Frontend Developer (React)

[Live Demo](#)

[View on GitHub](#)

- Event Discovery: Browse through upcoming tech conferences, hackathons, and workshops.
- Ticket Cart Management: Add tickets, dynamically update quantities, and clear the cart. See expenses broken down by category with a visual bar chart (made with CSS).
- Order History: Authenticated users can view their past orders with real-time checkout simulation.
- **Authentication:** User registration and login (handled via context).

TECHNICAL SKILLS:

HTML | CSS

JavaScript | TypeScript | React

Git | npm

REST APIs | Fetch API | JSON | Node.js

SQLite, Postgress

EDUCATION

2025 - 2026 HackYourFuture: Web Developer Bootcamp

HackYourFuture is an 8-month, 30-hours-per-week web development program focused on hands-on learning, modern web technologies, and collaborative project work. The program provides real-world coding experience and mentorship from industry professionals.

2025 ReDi School of Digital Integration: Frontend Developer

2013 Master Degree: Economics and Managment (Business Valuation) at Saint-Petersburg State Polytechnical University

WORK EXPERIENCE

2023 - Present Operations/ stockroom Assistant

Zara (Flagship Store), Strøget, Copenhagen

Ensure the smooth and efficient flow of merchandise and internal processes (backstocks, replenishments, deliveries, etc.) to support store performance and support overall performance.

Skills: Multitasking, Cross-functional communication, Data & Systems handling, Quality & Standards control, Teamwork in multicultural environment, Task prioritization and time management

2020 - 2022 Relocation to Denmark

✓ First Job Copenhagen course

✓ UCplus Language Center, Danish Languages Exam (Prøve i Dansk 3)

I relocated to Denmark on a family reunification base. I worked part-time to support my transition and actively learned Danish to integrate into the local community and expand my opportunities.

Skills: Adaptability & Flexibility, Integration, Self-Motivation & Organization

2018 - 2020 English Tutor (online)

2017 - 2018 Client Service Specialist/ Administrator

Saint-Petersburg Renovation, construction company (400+ employees)

Consulting the clients over the phone and in person, negotiations, writing replies to clients claims, handling the paperwork (preparing documents, editing and signing contracts), keeping the records of the client services department. Working with CRM (Microsoft Dynamics), creating guides and scripts for the client service team, collaborating with the legal department, and coordinating with engineers/technical department to resolve client issues.

Skills: Client Consultation & Communication, Problem Solving, Documentation & Contract Management, CRM (Microsoft Dynamics), Knowledge Sharing, Cross-Functional Collaboration, Administrative documentation, Complain managment

LANGUAGES

English (fluent) | Danish (intermediate - ongoing) ✓ completed PD3 exam in 2024 | Russian (native)

HOBBIES

Literature | Puzzles | Travelling | Gym, yoga & pilates | Boardgames & videogames
